A RUMOR UNCONFIRMED.

No Confirmation of the Reported Resignation of Campos.

THE INSURGENT ARMY GROWING.

General De Quesada Asserts That Spaniards Are Constantly Deserting to the Cuban Standard—Reported Capture of an Insurgent Leader.

NEW YORK, Aug. 14.—No confirmation has been received of the report in a daily paper of this city that General Campos had resigned his command of the Spanish forces in Cuba. In an interview with General De Quesada on the subject the Cuban leader said: "It would not be surprising if General Campos did carry out his oft repeated threat of throwing up the command in Cuba."

"Information just received from Camaguey tells of the success of General Gomez and of daily reinforcements to his ranks. The city is in a panic and the Spanish troops are afraid to venture beyond its limits. General Campos has ordered that every body of troops shall leave monuments behind, in order to show that they have operated in the places designated by him. When the soldiers return from their excursions in this region one-half of them are disabled by sickness. In the hospital at Puerto Principe there are over 400 Spanish soldiers, and the deaths average twelve per day."

"From the sugar plantation of El Lagunero fifty Spaniards, natives of Galicia, recently joined the insurgents, showing that even the Spaniards are in sympathy with the revolutionists. From Madrid I am informed that the reserves of 1891 are so disgusted at being ordered to Cuba that the government is afraid of a mutiny. To prevent this they have been disbanded, and their arms and ammunition will be shipped on a transport to Cuba. The reserves, however, declare they will join the revolutionary forces when they are disembarked in Cuba."

Killed for Many Crimes.

FORT SMITH, Ark., Aug. 14.—Rufus Buck, Sam Sampson, Meo Judy, Lucky Davis and Albert Stake were lodged in the United States jail here Monday. All are young men. "I murdered John Garrett, a negro deputy marshal, about ten days ago. They met Mrs. Rosette Wilson two miles from Sapulpa, took her from the wagon, and at the point of their revolvers outraged her. Two days later they went to the house of Mr. Haddon, between Sake Creek and Duck Creek, and all five assaulted Mrs. Haddon in the presence of her husband. They are charged with outraging two other women, robbing two stores and holding up three individuals. They robbed a stockman named Callahan and killed a negro boy who was with him."

To Investigate Chinese Massacres.

SHANGHAI, Aug. 14.—Mr. Mansfield, the acting British consul at Foo Chow; Mr. Allen, the British vice consul at Pudong Island; Colonel J. Courtenay Hixson, United States consul at Foo Chow; Messrs. Baulster and Gregory, and one of the lieutenants of the United States cruiser Detroit, will start from Foo Chow for Ku Ching, the scene of the recent massacres, as soon as possible, in order to make a complete inquiry into the matter. The consular party will be escorted by a detachment of 100 Chinese braves, the viceroys having refused to allow an escort of foreign soldiers or marines to accompany them.

WHITE MEN THE AGGRESSORS.

Bannock Indians in No Way Responsible for the Latest Uprising.

WASHINGTON, Aug. 14.—A report sent to the war department by Captain J. T. Van Orsdale, of the Seventh Infantry, late acting agent at the Fort Hall Indian reservation, on the subject of the trouble with the Bannock Indians, has been forwarded to the secretary of the interior. The report says in part:

"Being short rationed and far from self supporting, the Bannocks hunt for the purpose of obtaining sustenance. By treaty they are granted this privilege. It would seem that the killing of these Indians under the circumstances is nothing more or less than murder. Further, I believe that there is no wanton slaughter of game by them, while it is a notorious fact that hundreds of animals are killed by white men for nothing more than heads and horns. There are men in that country who make it a business to pilot hunting parties from the east and abroad which not only slaughter elk, but capture and ship them out of the country. The killing of game by Indians interferes with their business."

"The Indians can hardly be expected to submit to the killing of their people while engaged in an occupation which they think they have a right to follow more quietly than white men would do, and failure by the government to take proper action is liable to result in serious loss of life and property."

Captain Van Orsdale's report bears the endorsement of Lieutenant Colonel Henry E. Noyes, of the Second cavalry, commanding the post, who says he concurs heartily in what the captain has said. It is also endorsed by Brigadier General Frank Wharton, commanding the department of the Colorado, who hopes that the department will take action in the matter.

Desperadoes Overrun.

EL PASO, Tex., Aug. 14.—Five desperate outlaws, charged with having committed almost every crime in the calendar, were captured in the center of El Pasola. Heavily armed and appropriately mounted, they rode boldly into town, apparently intent on making a raid, and believing that they would receive but little opposition. They were mistaken, however, for they were quickly surrounded by armed deputies. The officers dropped on them in a complete surprise, and the quittance meekly gave up their arms and submitted to arrest without making the least effort to escape. Composing the gang are Charles Wilson, Ray Deffenbaugh, Joe Back, Charlie Moore and Coy Sheehan.

Miel's and Striking Miners.

ISBERG, Mich., Aug. 14.—The striking miners are in conference with the managers at the various mine offices in Ishpeming and Necedane concerning the advance in wages which is offered if the men will return to work. The companies will make no discrimination against the members of the union, but will not treat with men except as individuals. If it were put to a ballot the majority of the men would vote to return at the wages offered, but with a viva voce vote the men may decide to stay out.

Struck Against the Company Store.

PITTSBURG, Aug. 14.—The 600 miners at the Saw Mill run mines went on strike yesterday against the company store. The store was at once abolished and the miners resumed work.

A New York Police Shake Up.

NEW YORK, Aug. 14.—One of the results of the attempt to enforce the excise laws was a wholesale transfer of police officials by the commissioners. The list of officers shifted to new posts numbers over a hundred, and includes three captains and six sergeants. Hindrances to the excise campaign by reason of the long acquaintance of the police with saloon keepers has made it difficult for them to obtain evidence in citizens' clothes, and also friendships between officers and liquor sellers will be done away with by this move. This step is said to foreshadow a general shake up.

Great Damage by Hail.

OWATONNA, Minn., Aug. 14.—A tornado swept over Steele county last evening, doing immense damage. It entered at Belle Plaine, striking that place at 5 o'clock. Hail stones from four to six inches in circumference fell to a depth of four inches, breaking all glass fronts in the business places and all the windows in the dwellings, churches and the city hall. Horses standing on the streets were knocked senseless. The corn crop in that region is totally destroyed.

The Affected Negro Colonists.

SAN ANTONIO, Tex., Aug. 14.—Of the 310 negroes confined in the government quarantine camp at Eagle Pass, 120 are afflicted with smallpox. The deaths average about four daily. The remainder of the 1,500 rations furnished by the United States government to Consul Sparks for the use of the refugees has been turned over to Dr. Evans, state quarantine officer of the quarantine camp, for use there, it being found impracticable to forward them to Mexico.

THE FIFTEENTH VICTIM

Of the New York Building Collapse Taken Out.

THE CAUSE OF THE ACCIDENT.

The Central Pillar of the Mammoth Structure Was Situated Directly Over an Old Well Hole, Which Was Evidently Unknown to the Contractors.

NEW YORK, Aug. 14.—The cause of the collapse of the Ireland building, in which fifteen lives were lost, came to light yesterday when the workmen engaged in clearing away the debris in the cellar uncovered an old fashioned well under the foundation. It was situated directly under the central pillar of the structure, the undermining of which precipitated the disaster. The well was only eighteen inches below the concrete base on which the pillar rested. It was of the old fashioned sort, six feet deep by eight feet in diameter, lined with rough stones, and there was no water in it.

The coroner and several building experts examined the well, but would give no opinion on the matter. One building expert said, however, that neither the contractor nor the officers of the building department could have been unaware of the fact that the well was there, nor of the fact that its filling was too soft.

A representative of the district attorney's office will attend the inquest on the bodies, and if any evidence of criminality is discovered the case will be laid before the grand jury.

Another badly mutilated and decomposed body was taken from the ruins yesterday and was identified as Peter Marano, an Italian laborer. It was terribly mangled and decomposed. Every bone in the body was broken, and great pieces of flesh were scraped from his arms and legs. Part of his face was crushed in, and he presented a horrible spectacle. This makes the fourteenth body which has been removed from the ruins, and the one who died in the hospital makes fifteen dead thus far. But one more man known to have been in the building is missing, and it is expected that his body will be found there.

A New Electric Combine.

NEW YORK, Aug. 14.—The World says: A new and gigantic electric combine has just been formed to fight the new Westinghouse-Baldwin combination. It includes the Yonkers railroad people and the Stevens and Halsey Electric company. The combination means the entry into the American market of a big foreign electric supply manufacturing concern, in affiliation with the Whittier-Bikins syndicate of the street car lines in New York, Philadelphia, Pittsburgh and Chicago. Charles F. Yerkes, the head of the new combine, is known as the Chicago cable king.

Riotous Italian Strikers.

PITTSBURG, Aug. 14.—One hundred and fifty Italians employed on the excavations for the conduit at Allegheny street for an advance of twenty-five cents per day in wages. Other men were secured to take their places, and yesterday the strikers tried to drive the new men from the work. Stones, clubs and revolvers were freely used, and two Italians, whose names could not be learned, had their heads split open in the melee. The mob was dispersed by the police.

A Clever Fraud Suppressed.

WASHINGTON, Aug. 14.—A fraud order has been issued by the postoffice department against the European Specialty company, of Bridgeport, Conn., and against J. W. Adams, its proprietor. The company advertised to sell a razor, brush, soap and cup for twenty-five cents. To those sending the money it forwarded a stone an inch or two square, with instructions to rub dry on the face until all the hair was gone.

Expelled from the Reformed Church.

BETHLEHEM, Pa., Aug. 14.—The eastern Pennsylvania classis of the Reformed church, at a special meeting, voted unanimously to strike from the roll of the church the name of the Rev. J. B. May, who has been in charge of the Bangor mission for several years. The charge against Mr. May is that he has adopted the Episcopal creed, while professing allegiance to the Reformed church.

Incendiary Bulgarians.

CONSTANTINOPLE, Aug. 14.—The Valie of Salonica telegraphed that a Bulgarian band, numbering about 1,000 men, had attacked the village of Janakli, in the district of Kirgintzi, and burned 200 houses. The Bulgarians are also said to have killed twenty-five inhabitants of Janakli. The Valie of Adrianople has sent a similar dispatch, but he thinks that the accounts of the affair are probably exaggerated.

Two Killed by a Caving Bank.

COLEMBIA, S. C., Aug. 14.—While a party of several workmen were engaged in shoveling dirt from an embankment the earth suddenly gave way, burying several of the men. All but three were taken out with but slight injuries. Henry Young and Joe Jones were dead when recovered, and Richard Hall had his ankle crushed, and perhaps is internally injured.

The Buffalo Plumbers' Strike.

BUFFALO, Aug. 14.—The plumbers' strike continues, and a meeting has been called to decide whether or not a general strike of all building trades shall be started. The union men who are working are paying 20 per cent. of their wages into the fund for the support of those who are unemployed, and they are anxious to bring matters to a focus.

The Choctaw Nation Election.

HARTSHORN, I. T., Aug. 14.—Reliable news from nine out of seventeen counties in the Choctaw nation show Wilson, for treasurer, in the lead, Locke a close second and Bryant distanced. Nine remote counties to hear from may increase Locke's vote, but hardly enough to displace him.

THE ALLEGED JAPANESE CRISIS.

No Confirmation of the Report at the Legation in Washington.

WASHINGTON, Aug. 14.—No information has been received at the Japanese legation in confirmation or denial of the report that a cabinet crisis exists in Japan, though the legation would not necessarily be informed of such an occurrence until the formation of a new ministry.

The report of dissolution was, however, a surprise to the members of the legation and has aroused great interest. While accustomed to look upon Counts Ito and Yamagata as almost permanent parts of the Japanese government, they admit that there has been dissatisfaction expressed among the opposition politicians concerning the recession from the terms of the original treaty, and it is surmised that any cabinet changes will be due to this crisis. They think, however, that a change on this account is improbable, as in Japan the ministry is the creation of the emperor, and its continuance in office is in no wise dependent upon popular approval, except so far as the ministers may personally be influenced by it.

Furthermore, they find it difficult to realize that there should be any misunderstanding on the question of rank. Both Ito and Yamagata are counts. The former holds the highest decoration within the gift of the emperor, and the latter is a marshal of the empire. It is not understood why men who have already been so highly honored should make much trouble over the question of the conference of an honor which would be only a slight advance over their present status.

No one at the legation will venture an opinion as to whether or not Count Ito is prime minister in case of his permanent retirement.

Killed His Father by Mistake.

NORTH YAKIMA, Wash., Aug. 14.—James McGonigle shot and killed his father, a rancher, six miles from this city, and fatally wounded a blacksmith named Eaves, of Antennum. He gave himself up to the neighbors and was brought to this place. The trouble arose over the slander of Eaves' daughter by young McGonigle. Eaves, his wife and daughter went to McGonigle's house to try to make James retract. Young McGonigle shot at Eaves, but missed him, killing his own father. He then fired at Eaves' daughter, but hit her father.

Four Years for Assaulting an Officer.

WASHINGTON, Aug. 14.—Thomas Gill, a private in the Third artillery, stationed at the arsenal here, has been sentenced to four years' imprisonment, with hard labor, at the Columbus, O., barracks, for an assault upon Lieutenant Berkehauser, of the same regiment. Gill asserts that he has been confined in a cell so small that he could scarcely stretch out at full length, with shackles on his legs. The little cell is lined with asbestos throughout, and is so hot and oppressive that Gill is submerged with perspiration all the time.

A Denial From Minister Ransom.

WASHINGTON, Aug. 14.—Captain Arthur Barnes received the following telegram from Minister Ransom, who is at Weldon, N. C., in a reply to a letter calling Mr. Ransom's attention to a report that he had given offense to Mexico by an interview criticizing the conduct of Mexican officials in extradition matters between Mexico and the United States: "All a mistake. Not one word of truth in any statement reflecting on Mexico officially."

Mrs. Denmond Gets Her Divorce.

BALTIMORE, Aug. 14.—Arthur Denmond, aged 17, and Margaret M. Carey, 19, were married in this city May 9, 1893. Separations and reconciliations with occasional charges of desertion and cross bills for divorce have marked their marital career. All is over now. Mrs. Denmond has secured an absolute divorce and \$15,000 alimony, besides two houses. Mr. Denmond is also required to pay \$2,500 to the counsel of Mrs. Denmond.

Philadelphia Weavers on Strike.

PHILADELPHIA, Aug. 14.—One hundred and thirty-six weavers on upholstery goods, employed by Hoyle, Harrison & Kaye, Third street and Lehigh avenue, left their looms yesterday and went out on a strike, owing to an announcement by the firm of a 10 per cent. reduction in their wages to be made at once. There are about 4,000 weavers of upholstery goods who will stop work if the strike becomes general.

Bent an Old Man to Death.

HAMPTON, S. C., Aug. 14.—Prince Graham, Jason Blake, William Fraser, William Blake and Cato Graham, all colored, are in jail for killing E. R. Mears, aged 73, last Friday night. They have confessed that they beat him to death in order to rob him. There was a strong disposition to lynch them, but the advice of law respecting people prevailed, and they will be given a regular trial.

Harrison "Out of Politics."

OLD FORTGE, N. Y., Aug. 14.—Hon. Charles E. Remick, of Oneida county, who is a follower of Senator Hill, met General Harrison here. "To the ex-president Mr. Remick said: 'General, if Cleveland and you are the nominees in 1896 I will vote for you.' The ex-president merely responded sentimentally, 'I am out of politics.'"

SILVERITES ASSEMBLE.

The Meeting of the White Metal Democrats at Washington.

PREPARING FOR DECISIVE ACTION.

Arrangements Will be Perfect for Forming State Organizations and to Fight the Issue in the National Convention—Illinois and Missouri Well Represented.

WASHINGTON, Aug. 14.—The conference of Democrats on the silver question, pursuant to a call issued by Senator Harris of Tennessee, Jones of Arkansas and Turpie of Indiana, met in the parlors of the Metropolitan hotel today, and will probably continue through tomorrow.

The call for the Washington conference grew out of a meeting at Memphis, and the decision to hold it here was arrived at after a full exchange of views that it was the best place for securing co-operative action on the part of silver Democrats throughout the country. Notwithstanding there were a number of Populists and some Republicans present at the Memphis convention, no representatives of either of these parties were invited to the conference which authorized the call.

The meeting here will have two principal purposes. The first will be to devise a plan to hold all silver Democrats in the Democratic party, and the second, to insure, if possible, a declaration for free coinage at the next national Democratic convention. To accomplish this latter purpose it is expected that an organization will be perfected in every state represented in the conference, the convention pledged to a silver platform and to a candidate of corresponding views. It is expected that men will be selected to take charge of this work in each of the states.

It is not intended that the gathering shall be a mass convention, but merely a meeting of representative Democrats of the country from each state, who favor the free coinage of silver by the United States independent of other nations, and who believe that the success of the party in the future is dependent upon its assuming an aggressive policy on this line. It is expected that over a hundred delegates will be on hand after the arrival of late afternoon trains.

Illinois and Missouri are well represented. Those from the former state include Hon. V. H. Hendrichsen, secretary of state and chairman of the Democratic state committee; Hon. George W. Fithian, John A. Barnes and George M. LeCroy, members of the legislature; ex-Representative McNeill, C. R. Tuttle, of Chicago, and J. V. Yontis, secretary of the railroad and warehouse commission. Missouri is represented by Hon. Webb M. Ruby of Mason, Harry Hill of St. Louis, Geo. Rickay and George Allen. Others here are Representatives Cox of Tennessee and Neill of Arkansas; Allen W. Clark, president of the state Silver League of Indiana, and Olney Newell, secretary of the state Democratic central committee of Colorado.

Trying to Save a Woman from Hanging.

ATLANTA, Aug. 14.—Intense interest has been aroused all over the state in the fate of Elizabeth Nobles, a white woman of Twiggs county, now in the Macon jail under sentence to be hanged at Jeffersonville next Friday for the murder of her husband several weeks ago. If the execution takes place it will be the second time a woman has ever been hanged in Georgia. Yesterday, at Kawkilsville, Judge Smith refused to hear a motion for a new trial on the ground of lack of jurisdiction, and the woman's attorneys will lay the case before the governor. If this fails a writ of lunacy will be sworn out, so that it is now certain the condemned woman will not hang Friday. No efforts are being made, however, to stay the execution of Gas Fambles, Mrs. Nobles' negro accomplice, who is also condemned to die Friday.

An Indiscriminate Slaughter.

LONDON, Aug. 14.—A Sofia dispatch to The Times says: According to news received from a Turkish official source 500 Bulgarians, led by three reserve officers, attacked the Mohammedan village of Dospat, across the Turkish frontier, before dawn on Saturday. The Bulgarians then set the village on fire and slaughtered the inhabitants indiscriminately as they rushed from the houses. It is stated that several hundred were killed. The Ottoman commissioner has delivered a protest to the Bulgarian government.

The Customary Chinese "Edict."

LONDON, Aug. 14.—An official telegram has been received in London announcing that the Peking government, at the suggestion of the British minister, N. K. O'Connor, has issued a peremptory edict calling upon the governors of all the provinces in the empire to prevent the people from being misled by idle rumors calculated to excite anti-mission disorders. Five of the participants in the Kueicheng outrages have been arrested, and will be tried forthwith.

Candidate Hurst's Acceptance.

BALTIMORE, Aug. 14.—Mr. John E. Hurst, the Democratic nominee for governor, has made public his letter of acceptance. In it he says: "I did not seek the nomination in any manner whatsoever, nor can I consent to have myself spoken of or considered as the candidate of any man or set of men, or as the representative of any clique, wing, faction or division of the party."

Wanted to Wreck Ferdinand's Train.

BUDA PESTH, Aug. 14.—An attempt was made to wreck Prince Ferdinand's train. The police heard of the plot and occupied the Steinbruck and Franzstadt stations, and caused the train to make a detour to avoid the Buda Pesth station.

A SCOTCH-AFRICAN PROFESSOR.

Career of Rev. William Mackenzie of Chicago Theological Seminary.

A native of Africa is to fill the chair of systematic theology at Chicago Theological Seminary. His name is Rev. William D. Mackenzie and he is the son of Rev. John Mackenzie, a Scotch missionary who has labored for years in

REV. W. D. MACKENZIE.

South Africa and is still stationed at Hanyu, near Port Elizabeth. Professor Mackenzie is 36 years of age and is one of Scotland's best known living clergymen. After a thorough preparatory education in two Scotch schools young Mackenzie entered the University of Edinburgh, where he won two class medals for logic and metaphysics and was graduated with first class honors in 1881. He is also a graduate of the Congregational Theological Hall, of which Dr. Lindsay Alexander was principal.

In 1882 he accepted a call to the Congregational Church of Montrose, and shortly thereafter was sent to Gortingen, Germany, to pursue a special course of study. In 1889 he began his work in Edinburgh as the pastor of Morningside church. When he assumed his duties, the congregation numbered 26 persons and worshipped in a rented hall, but in six years the energetic young clergyman succeeded in building up one of the largest and most influential churches in the city. The membership increased to 220, the congregation secured a building of its own, and in recognition of his remarkable services the Scottish Congregational clergy elected him chairman of their governing body.

In 1889 Professor Mackenzie also became editor of The Scotch Congregationalist, and in 1891 wrote a long article on "The Ethics of Gambling" that attracted widespread attention and has been published in book form. He has contributed to many of the leading magazines, and his address before the Congregational Union of Scotland on "The Living Christ, the Actual Ruler of the Earth," has already passed through three editions. He inherits his talent for authorship from his father, who has written "Austral Africa," "Ten Years North of the Orange River" and other works that have achieved considerable success.

Professor Mackenzie is described as being thoroughly evangelical, well informed concerning the questions of the time, unusually erudite in philosophy and Biblical knowledge, logical and convincing as a reasoner and powerful as a speaker and writer.

4,000 Miles With a Wheelbarrow.

In 1878 Lyman Potter of New York state performed the prodigious task of pushing a common "paddy" wheelbarrow across the continent. He started from his home on Dana street, Albany, on the morning of April 19, 1878, and arrived in San Francisco on the afternoon of Oct. 3 of the same year, being almost exactly 178 days (five hours and three minutes over) in performing the wearisome feat. Potter was a shoe-maker, and the trip was the result of a wager made by some friends who believed that such a trip would occupy at least 200 days. The wager was \$1,000, but Potter made between three and five times that sum advertising for different parties along the route. The wheelbarrow was made specially for the use to which it was put and weighed but 75 pounds. The distance traveled by Potter was exactly 4,085 1/2 miles.—St. Louis Republic.

"I beg your pardon," said one man to another in a railroad train, "but I am the manager of a museum, and I have a vacancy now for a strong man."

HARDIN A HAND SHAKER.

Simple in Dress and Democratic in Manner Is the Kentucky Candidate.

Parker Watkins Hardin, the free silver Kentucky statesman who enjoys the distinction of having been chosen to run for governor of the state on a gold platform, is a member of the famous Hardin family that has been prominent in Kentucky for over a century. The family made Kentucky its home in 1784, and the more prominent members settled in Washington county. The present Democratic gubernatorial candidate was born in Adams county June 3, 1841, was educated in the local schools, and was admitted to the bar the year the war closed. Locating in Harrodsburg, he built up a successful law practice and became such a popular and powerful politician that in 1881 he was elected attorney general of the state on the Democratic ticket.

In accordance with an old and well known Kentucky custom, he has been called General Hardin ever since. His regime was so popular that he was twice re-elected, with little opposition, and for 12 years officiated as attorney general. Four years ago he developed formidable strength as a candidate for the gubernatorial nomination, but in a three cornered fight between himself, John Young Brown and Cassius M. Clay, Jr., Brown was declared victor by the Democratic hosts.

Candidate Hardin is a man of fine presence, and his simplicity in dress and his marked democracy of manner have been elements that have materially contributed toward forming his popularity. Every man in Kentucky calls him Wat Hardin, and he prides himself on being a man of the people. He is an excellent political manager, and it is alleged that as an orator he has few equals and no superiors in the Bourbon State. He knows the value of a hearty hand shake as well as any politician on earth, and his stalwart arm can give a pump handle a substantial handicap and yet win every time when it comes to a matter of endurance. He has plenty of "honest" and "sound" money and can well afford to gratify his love for the great game of politics.

Vesuvius a Popular Spectacle.

A Naples correspondent reports that the lava descends Vesuvius very slowly, straggling about the crags and small ravines. Therefore the spectacle from the observatory is very interesting, and, so far, quite safe. A large stretch of the mountain is covered by the lava from the new crater close by, and at some distance from its point of issue the fiery mass divides into smaller streams, which find their way down the inclines to the south of the observatory toward Resina. The country people around Vesuvius are more curious than prudent. They climb the mountain in all directions, some even crossing with foolhardy bravery the still smoking stream. Crowds of little boys play on its very edge, where it is not so deep as to emit unbearable heat, and pick up smoking bits to throw at each other. A strange crowd of sightseers! Men in their shirt sleeves, women in their white jackets, come along singing, playing the tambourine, beating time even on empty petroleum tins, anything to make a noise, taking the demonstration of the mountain as a good joke. A few carriages bring foreigners as far as it is possible, after which the tourists must walk. The people who keep little drinking shops on the highroad up the mountain drive a roaring trade.

Economy of Shoeblackening.

Every morning on South Sixth street can be seen a well dressed, one legged young man getting his only shoe shined. The other limb has been amputated at the hip. As he stands on the one crutch he carries, with the shoe resting on the bootblack's box, he is the cynosure of passersby. "That young man is a regular customer," said the shiner in reply to questions asked of him. "No; he doesn't pay the regular price of 5 cents, but gives me 15 cents every week. As he only has one foot and has his shoe shined every day I do the job at half price. I have other customers of a similar character, as this neighborhood is thickly populated with cripples."—Pittsburg Chronicle-Telegraph.

Narcoti-Cure

Cures the Tobacco Habit in 4 to 10 Days or Money Refunded.

Use All the Tobacco You Want Till Your "Craving" is Gone.

NARCOTI-CURE is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in from four to ten days. It leaves the patient in better health than before taking, and is warranted free from any injurious ingredients.

NARCOTI-CURE is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

NARCOTI-CURE is sold at the uniform price of \$5 a bottle, and one bottle cures.

Money refunded if a cure is not effected when taken according to directions.

PROP. W. N. WHITE, of Amherst, Mass., Chewed Tobacco for 46 Years, and Was Cured by Narcoti-Cure.

AMHERST, MASS., Feb. 8, 1898.

THE NARCOTI-CHEMICAL CO., Springfield, Mass.

Gentlemen:—Replying to yours of the 1st, would say that I have used tobacco for 46 years, and of late have consumed a 10-cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit, until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days, all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects whatever. I am gaining in flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say, use Narcoti-Cure.

Yours truly, W. N. WHITE.

KNOWLEDGE

Brings comfort and improvement and adds to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adopting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver, and Bowels without weakening them and it is perfectly free from any objectionable substance.

Syrup of Figs is for sale by all druggists in 50 cent bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

WALL STREET.

If some of the people we are acquainted with had bought Building Lots on Richmond Hill instead of stocks in Wall Street, they would have been better off in this world's goods than they are now. There are a number of good things we might say in this connection. Real Estate in the form of Lots.

RICHMOND HILL

is a particularly desirable investment. No one can "bull" or "bear" the market. The principal is always safe at any rate.

THIS STOCK IN BUILDING LOTS

simply keeps on increasing in value with each house that is erected. There are no "puts" or "calls." All the "margin" you "put up" is your little monthly payment. No "bucket shop" business, the water mains are on as by no one can steal them. They don't eat anything, and at the end of the year you find yourself in

Possession of Property Worth Two or Three Times what You Agreed to Pay for It

and you have not risked the principal. Yet a fellow had the colossal gain and the momentary check to offer us some "Cordag" the other day in trade for one of them. I course we declined. We have just stated the reason. We have heard a disposition among certain parties to refuse Back Notes in payment of claims; we wish it understood that all kinds of money in common use will be received for payment on Richmond Hill Lots.

Suit for Many Millions.

SAN FRANCISCO, Aug. 14.—A suit involving \$24,000,000 worth of property is soon to be brought by the heirs of Jose de Jesus Nee against the owners of the land, improved and unimproved, in that portion of the city known as San Miguel Rancho. All the land comprising the San Miguel Rancho was acquired from the government of Alta-California in 1845. Not transferred this land to W. J. Horner. The heirs claim that Senor Nee had no legal right to make said transfer.

Alleged Murder for Insurance.

WASHINGTON, Aug. 14.—A negro boy, Campbell Hall by name, living with Rose and William Hammond, also colored, died here on Monday under circumstances so suspicious that the coroner decided upon an inquest, which was held yesterday, resulting in the holding of the Hammonds to the grand jury. The evidence showed that the boy virtually died from brutal treatment, and that his life was insured in favor of Rose Hammond in the sum of \$50. The fact was also developed that the Hall boy's brother, who also lived with the Hammonds and who was insured in the woman's interest for \$300, had died there about two months ago, and that they have another negro boy now living with them, who is also insured for Mrs. Hammond's benefit.

An Enraged Negro's Revenge.

ST. LOUIS, Aug. 14.—An enraged negro fired a number of bullets into a crowd of passengers and members of the crew of the steamer City of St. Louis as they came down the gang plank of the boat just after she landed at the wharf between 7 and 8 o'clock. Two white men and two negroes were wounded, one fatally, but none of the passengers were hurt. The shooting was the outcome of a fight between the negro, whose name is unknown, and Louis Davis while the steamer was lying at Cairo on Sunday, and in which the negro was badly beaten and driven from the boat. He boarded a train and arrived here in advance of the steamer.

New York Tailors' Strike Off.

NEW YORK, Aug. 14.—The tailors' strike was formally declared off last night by the strikers. Thirty contractors signed agreements yesterday, leaving but forty out in the cold. The success of the tailors' strike has emboldened several kindred organizations, the pants makers, jacket makers and vest makers, all of which are affiliated with the Knights of Labor, and all of which have grievances. The three organizations passed resolutions looking to a strike unless their employers will offer them more liberal contracts. They number over 6,000.

Postoffice Robbers Caught.

WHEELING, W. Va., Aug. 14.—Two of the slickest catches ever made by the United States officers are now behind the bars here and were landed by Deputies Boyd Vinson and "Doc" Smith. They give their names as Albert Fisher and Oscar Dawson, and though youngsters in looks are old hands at postoffice robbery. They are from the east, but the looking of at least six postoffices in this state is credited to them. The deputies arrested them in Tazewell county, Va.

Seventeen Mexican Bandits Shot.

TUCSON, Ariz., Aug. 14.—Advices from Fronteras, Sonora, Mexico, says: Six weeks ago Colonel John Weirs, a messenger, was killed and \$5,000 taken by highwaymen in Sonora, south of Bisbee. The Mexican authorities have pursued the bandits with unrelenting vigor. Seventeen of the number captured, who were in some way connected with the affair, have been convicted and shot. One of the accused was an American.

Many Nihilists Arrested.

BERLIN, Aug. 14.—A dispatch received here from Odessa states that seventy alleged nihilists were arrested in a restaurant in that city. After the police had raided the place the keeper of the restaurant committed suicide. Many arrests have been made of persons residing in the suburbs of Odessa on suspicion of being concerned with the plots of the nihilists taken into custody at the restaurant.

NEW YORK, Aug. 14.—August Belmont has purchased Henry of Navarre from Byron McClelland and Dorlan J. W. Rogers. Mr. Belmont paid \$25,000 for Henry of Navarre and \$7,500 for Dorlan. An Improvement—A successful so-called—Personal Mention—C. E. Meeting.

Correspondence ARGUS and MERCURY.

—Mr. O. S. Borland is improving the appearance of his house by a fresh coat of paint.

—The sociable given at Mr. O. G. Seward's, Friday night, was well attended and a good time is reported by all who attended. A pleasing part of the evening programme was the reading of a prophecy on all the young people of the congregation, five years hence, by Miss Bessie Williams. About \$22 was realized by the society.

—Mr. and Mrs. R. V. Ryerson and the latter's mother, Mrs. E. E. Mills, and daughter, Gertrude, have gone for a week's sojourn in the Catskills.

—The C. E. Society's meeting was well attended, Sunday morning. The topic was "The Great Physician." The meeting was led by Miss Eliza Stage and was very pleasantly addressed by Rev. Mr. Jessup, of Kansas.

—Daniel Hook, of this place, lately employed by Mr. H. T. Stage, has removed with his family to Mud Mills.

—Miss Minnie Wickham is spending a few weeks at Crystal Run with Mrs. Greg. Stage.

A Japanese Immigration Company.

WASHINGTON, Aug. 14.—The bureau of immigration has information that a company has been formed in Japan for the purpose of sending Japanese laborers to this country under contract. Commissioner General Stamp in speaking of the matter said that as yet the bureau had no positive knowledge on the subject, but he was inclined to give credence to the rumor. Up to this time only comparatively few Japanese had come into the country, but his information was of such a character that it could not be ignored, and all immigration agents everywhere, especially in the northwest, would be put on their guard.

Tillman an Ardent Silverite.

CONCORD, N. C., Aug. 14.—Senator Tillman spoke yesterday in front of the court house to an audience of 700 or 800. Tillman said he was a Democrat, but if the presidential nominee was not an unquestionable silver man he and his South Carolina followers would go elsewhere. He spoke of many of the Populist principles as crazy and foolish notions. He made a special plea for white supremacy. He wanted the Populists to give up local strife for small offices and join in the effort to get the southern Democrats and western Republicans united in the fight for free silver.

Fixing a Watch.

"I dropped my watch today, and it has been gaining ten minutes an hour," said a man, at the same time handing the watch to a jeweler. The jeweler stuck a glass in his eye, looked into the interior of the watch, poked something with a small instrument, set the watch by a regulator, and handing it back, said, "It's all right now, and I've set it by the correct time." "How much?" said the customer, relieved. "Nothing," was the answer. "But I can't let you work for me without pay." "We never charge any one for such a service; why should we charge you? The hairspring was doubled, and that made the watch run fast. A single touch set it right." —New York Sun.

Neighborly Curiosity.

Mrs. Mercklen was standing on the front doorstep when her husband came home. "Henry," she said in a loud tone, "there's your income tax blank. You'd better fill it out right away." "Great Scott, Maria!" he exclaimed, "what do I want with an income tax blank?" "Don't talk so loud," was the admonition in a subdued but stern key. "It's a summons to serve on the jury. The next door neighbors on both sides of us have been sitting behind the closed window blinds waiting for you to come home so they could find out what the officer was here for." —Washington Star.

How to be Handsome.

It is a mistake to suppose that the only way to be good looking is to be born so. Good health has more to do with good looks than anything else. Such diseases as constipation, dyspepsia, liver complaints, rheumatism, nervous disorders, &c., not only shorten life, but spoil tempers and "looks." Bacon's Celery King for the nerves cures these troubles. John J. Chambers sells it and will give a sample package free.

Your Ice Cream—is its flavoring pure?

Of all flavors PURE Vanilla is best suited for a cultured palate or a delicate stomach.

If you buy Vanilla Ice Cream insist upon PURE Vanilla. We are large manufacturers of this Extract, and we want everyone to know a pure vanilla flavor when he tastes it.

When you drink our Vanilla Ice Cream Soda Water, notice the delicacy yet clearness of the flavor. That's PURE Vanilla of the highest type. Then when you drink it elsewhere, notice the difference. If different, it's adulterated. Some ice cream makers, from a mistaken idea of economy, use adulterated Extract Vanilla.

We offer pure Extract Vanilla at a fair price to everyone—the quantity required (a small teaspoonful to a quart of ice cream—no more) makes it true economy to use our Premium Extract Vanilla. What do you use? What does your ice cream maker use?

THE KILLING WAS PREMEDITATED.

SO SAYS THE CORONER'S JURY IN THE SUMMITVILLE SHOOTING CASE.

The Jury Deliberates Only Half an Hour—Evidence of the Dead Man's Companions Bears Strongly Against McComb—The Prisoner Refuses to Testify—Committed to Jail Without Bail—Burial of the Victim.

The taking of testimony before the coroner's jury in the case of Jean Courate Dageith, the strolling bear trainer, who was shot and killed at Summitville, Monday evening, by James McComb, was concluded at 3:07 o'clock, yesterday afternoon.

McComb refused to go upon the stand, and as he has kept a close mouth ever since the shooting, his version of the tragedy and the causes that led to it is not known.

The companions of the dead man, in their evidence, swore that there was no occasion for the shooting. Their stories were that after McComb ordered them to leave, no time was given them to get away. It was a word and a shot.

KILLING WAS PREMEDITATED.

The jury, after half an hour's deliberation, returned the following verdict:—"That deceased met death at the hands of James McComb by use of a gun, and that he premeditated the killing."

McComb was held by Coroner Roesch to await the action of the Grand Jury, and, handcuffed to Andre Pierre Mattiote, who was held as a witness, he was taken to the Monticello jail by Constable James Gordon.

The other Frenchmen were released upon their promise to appear before the Grand Jury.

BURIAL OF THE VICTIM.

The remains of the murdered man were interred, last evening, in the Centennial Cemetery, north of Wurtsboro, by Undertaker W. T. Bullard, of Wurtsboro.

Under this verdict, McComb cannot be bailed, and will have to remain in jail until the next Grand Jury meets in September.

MCOMB'S LARGE FAMILY.

McComb and his family were formerly residents of Montgomery, Orange county, and moved to Summitville about eight years ago. He is a man in needy circumstances, and has a wife and six children.

He lived in a small house on the banks of the canal, about a quarter of a mile from the railroad station.

LOOKS DARK FOR M'COMB.

The case has a very dark look for McComb. The fact of his having accepted a drink at the invitation of the Frenchmen, and, according to the testimony of Hotel Keeper Jones, having bargained with them in reference to their sleeping in his barn that night, would indicate that he was not much afraid of them. Then, too, his having gone half a mile away to borrow a gun, "as there was a bad lot up there and he would have to sit up the remainder of the night to watch them," presents another dark side to his case, and is, of course, the cause of the jury's verdict of premeditation.

Neither Mrs. McComb nor her children were placed upon the stand, and therefore the jury had no evidence of molestation upon the part of the Frenchmen as claimed by Mrs. McComb. Her evidence may have some weight with the Grand Jury when the case is heard, and may go far toward clearing her husband.

THE CORONER'S INQUEST.

The evidence before the coroner's jury, yesterday afternoon, was as follows:

Ita Lucien, one of the dead man's companions, continued his story, commenced in the morning. He testified that they could see McComb's house, from where they were camping but were not nearer to it than the spring by the barn. Mrs. McComb and the children said nothing to them. The bears were muzzled. We carried only pocket knives. Think one of our party had a revolver. Dageith and Balent (the wounded man) were traveling together. We did not chase McComb with pistols, clubs, etc. We have been in the United States two years.

ANOTHER BEAR TAMER'S STORY.

Andre Pierre Mattiote, another of the bear trainers, testified:—"McComb did not request us to go away. Saw the house and barn but did not know to whom they belonged. Was not near either. Had seen McComb at the hotel and asked him to take a drink and he accepted. Did not see the woman or children, as I was out buying provisions. The shot was fired about two minutes after McComb ordered us to 'get out.' We asked for five minutes time. I assisted deceased to the railroad station. Did so at his request. He said, 'I am shot and going to die; take me to the railroad station.' He lived but a few minutes. Deceased was 33 years of age. Do not know whether he was married or not. I was never drunk in my life. I carried no firearms. Half of the beer remained in the keg this morning."

THE WOUNDED MAN'S TESTIMONY.

The wounded man, Huguet Jean Balent, was the next witness. He said that he had been with the deceased for two years. Was camping near the spring Monday evening. Heard a man's voice say, "get out or I will shoot you." Did not see the

man nor the gun. The voice and that of McComb sound alike to me. Did not go in the barn or house. I carry a small pistol to use on the bear if necessary. I also carry a small knife. I did not chase anybody. Told McComb that we would harm nobody. I do not believe that the bears were at the spring. I met McComb in the bar-room, where he drank with us.

INCIDENTS AND HAPPENINGS IN GOSHEN.

At the Cake Walk—A Runaway—Hawkins Family Reunion—Picnicking at Midway—Learning to smoke—Other Notes.

From Our Regular Correspondent.

A large number from this village went to Midway Park, last evening, to see the cake walk. Some succeeded in seeing it and many were unable to, owing to the large crowd which was present. Goshen had two couples in the walk, Fred Huff, who walked with Mrs. Alex Stewart, and Phillip Walker, who had as a partner a young lady from Middletown. Although Casper Reiner, of this village, was one of the judges, the Goshen representatives failed to carry off either of the two prizes awarded. The Goshen couple both walked well, but did not seem to have the winning qualities.

A horse belonging to Seely & Knapp ran away, last night. It started back of the depot where it was backed up waiting for a load of goods from the express office. Mr. James Barnes, who had the rig in charge, had just alighted, when the Pine Island train came up and evidently scared the animal. Mr. Barnes had hold of the reins when the horse started but could not stop the animal. It started from back of the depot and kept kicking until in front of the post office, where it managed to get loose from the wagon. The wagon was badly damaged but the horse escaped without any serious injuries.

The members of the Hawkins family will hold their annual reunion and picnic at Midway Park, Wednesday, Aug. 21.

The Presbyterian Sunday School is picnicking at Midway Park, to-day. They left, this morning, at 9 o'clock, and will remain until late, this evening.

Miss Fannie Crane, who fell and broke her wrist, last Friday morning, is improving nicely.

A man who resides at the St. Elmo, and who is in the neighborhood of thirty-five years old, is just learning to smoke a cigar. His awkwardness in handling the new thing to him creates considerable fun for his many friends.

On account of the State Firemen's annual convention at Troy, on Aug. 10, the Erie will sell excursion tickets from this station at the rate of one first class limited fare for the round trip.

IN ANCIENT GOSHEN.

Some Personal Notes—The Inconsistency of Man—The Irritating Effects of Hot Weather.

From a Special Correspondent.

Miss Charlotte Dessave, of Washington, D. C., is the guest of Mrs. Wm. Malson.

Mr. and Mrs. Sydney Miller are the guests of Mr. George O. Miller, at his home in this village.

Mr. and Mrs. Henry Wright, of Albany, are visiting Mrs. A. C. Ireland, at her home at Crystal Run.

Inconsistency is generally considered to be an attribute which is peculiar to the fair sex, but occasionally one sees something of it in mankind. When women were in the habit of banging their hair, men were constantly criticizing and condemning them for the practice, but no sooner did the majority of their wives and sisters appear with neatly parted locks in imitation of the old time style, than men at once took very kindly to the despised "bangs" themselves. Much fault has also been found with women for copying such articles of male attire as seem to them becoming or convenient but doubtless if there were anything in their dress that appealed to the covetous feelings of their masculine relatives, they would lay violent hands upon it at once. That they have not done so to us they fully appreciate the superior comfort of their own raiment.

Somehow extremely hot weather is very hard on the temper or rather nerves; it always sounds better to say we are nervous than that we are cross, but often one's irritability seems to rise with the mercury in the thermometer. Bodily relaxation is often accompanied by a corresponding mental condition, and it is then that the asker of questions is sure to attack you. With your mind like an untidy bureau drawer, with the ideas all in disorder, and the one you want at the very bottom under a heap of rubbish, it is very exhausting to be obliged to undergo a searching cross-examination. Perhaps it is rather irritating at the best of times. Speaking of ideas, it is a strange thing how you can mislay one occasionally, just as you often do some article belonging to you, and how the best way to deal with both is to let them alone and leave them to turn up. The missing article will appear before you some day as if by magic, and the idea will pop into your mind while you are thinking of something entirely different.

BABY SEED SONG.

Little brown seed, O little brown brother,
Are you awake in the dark?
Here we live cozily, close to each other,
Hark to the song of the lark!
"Waken!" the lark says. "Waken and dress
you."

Put on your green coats, and gay
Blue sky will smile on you, sunshine caress you,
Waken, 'tis morning, 'tis May!"

Little brown seed, O little brown brother,
What kind of flower will you be?
I'll be a poppy, all white like my mother,
Do be a poppy like me!
What? You're a sunflower. How I shall miss
you.

When you're grown golden and high,
But I shall send all the larks up to kiss you!
Little brown brother, goodby!

ROUTED.

Pingwill was a nuisance. He married a respectable young woman of mature years and lives on her sufficiency, and he goes about pretending to be a literary character on the strength of an edition of a classic, an examination success at some university place or other, and occasional reviewing. He likes to talk about books and is offensively familiar with all the masterpieces and most of the rest of English literature. He considers gabble about books intellectual conversation. He regards a quiet man smoking in a chair as fair game for his scraps of quotation—which he is as eager to void as he is greedy to acquire—and he cannot understand that people who write books never read them and are full of bitter memories of their own adventures in authorship. He wears a pince nez, and Mrs. Pingwill, when present, echoes all his quavering severities with the explanation that "George is so satirical." He is exasperatingly reliable in the matter of names and dates, and at first, perhaps, we made the mistake of encouraging Pingwill.

Heydinger was the chief encourager of Pingwill. He is a humorist, a kind of person who sees jokes in things that rouse the passions of ordinary people, and he found an unaccountable pleasure in developing one particular aspect of the Pingwill constitution. No retired pork butcher's lady, no wife of a village rector who has married beneath him, could be more punctilious of her intimacy than Pingwill among his authors. And Pingwill was just as intensely sensitive to the breath of scandal, which in matters literary is called criticism. No one could be thicker with a really able author; no one kinder to "ent" the writer who fell under the shadow of adverse comment.

He was, in fact, a literary snob—a by no means rare variety—and he had an almost passionate dread of admiring the wrong man. He took reviews in the weeklies quite seriously. Naturally he had nothing but serene contempt for Dickens and Jerome and Mark Twain, and "people of that stamp." And Heydinger never tired of drawing him out upon Kipling. In a careless moment he had informed us that Kipling's style was rough and unfinished—it seems he tried for once to form a judgment for himself and had happened upon really quite vulgar and coarse expressions. After he had learned better from a review, the more name-filled him with more formidable memories. It was as if the rector's wife had cut the duchess by mistake. Horrible! Then he was privately in great trouble about Besant and Hall Caine. "Ought I to know them?" was the attitude. The oracles differed. He was deliciously guarded upon these authors under Heydinger's most searching questions, but his face flushed guiltily. Le Gallienne, Zangwill, and most of the younger men, who have warm friends and animated critics, brothered him more or less, and he had a horrible dread, I know, that Rudin, whom he had admitted himself to admire, was not quite all that he should be. "One has to be very particular," was Pingwill's attitude.

However, after awhile we tired of this creature's odd way with books, and his personality began to become, as I say, a nuisance. But Heydinger, who had formed a crude conception of his character, regarded the remedy, and together we set out to cure him. Both Heydinger and I had got through a morning's work, and in the evening, fresh and freshly primed, we dropped into a chair and emitted some indifferent remarks.

"I have read," he said, "that the delicate child sketches of Kenneth Graham's are not a bad book by themselves."

"Read?" said Heydinger brutally.

"No—hardly—yet," said Pingwill.

"But they are good, aren't they?"

"Very good, I, but that's no reason why you should go about calling them delicate before you have read them."

"Perhaps not," said Pingwill. "Perhaps not."

"They remind me very much of Wendell H. per," said Heydinger. "You know him, Bellows?"

"Intimately," I said. "I have one of his first editions at home."

"You will be remanded very much of Wendell H. per," said Heydinger, turning to Pingwill.

"Indeed?" said Pingwill, stepping into the trap.

"The same subtle suggestiveness of phrase," said Heydinger. "The same delicate and penetrating sympathy."

"I must candidly read them," said Pingwill, evidently searching his mind for the name of Wendell Hooper and flushing slightly.

"I know of no man," said Heydinger, "except perhaps, Lant, who comes so near to H. per as Graham. You know Lant's style, Pingwill?"

Pingwill flushed a little deeper, and his ears grew pink. "I can't say," said he, "that I've read."

"He's not so well known as Hooper," I admitted. "He is in the little set that clustered round Leigh Hunt."

Pingwill suddenly felt hotter again. "I think Leigh Hunt"—he began, evidently ready with a fragment of text-book.

"He borrowed from Lant," interrupted

HEART DISEASE, like

many other ailments when they have taken hold of the system never gets better of its own accord, but constantly grows worse. There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and don't know what to take for it, they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dyessville, Ohio who writes June 19, 1894, as follows:

"I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians and remedies, until my last doctor told me it was only a question of time as I could not be cured I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I couldn't lie down nor sit up. I thought my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking Dr. Miles' New Cure for the Heart and wonderful to tell, in ten days I was working at light work and on March 19 commenced framing a barn, which is heavy work, and I haven't lost a day since. I am 56 years old, 5 ft. 4 1/2 inches and weigh 250 lbs. I believe I am fully cured, and I am now only anxious that everyone shall know of your wonderful remedies."

ed Heydinger. "Certainly he borrowed from Lant. That essay on the chimney pot hat!"

"Pure Lant," I said.

"I've neglected Lant a little, I am afraid," mumbled Pingwill, horribly bothered by this unknown name.

"You should read him," said I. "He's a perfect mine of good things. That passage in Browning, for instance. You were pointing out the resemblance only this morning, Heydinger."

"About the chattering disks," said Heydinger. "You remember that, Pingwill?"

"I think so," said Pingwill. "Chattering disks. I seem to recollect. How does it go?"

"The chattering disks go reeling," said Heydinger, inventing boldly. "You must remember."

Pingwill now was really very uncomfortable. But he was having a lively lesson in priggish conversation. "I wish I had my Lant here," said I.

"You surely remember about the chattering disks?" said Heydinger, turning as he pretended to search for a book on the shelf.

"The phrase is quite familiar to me," said Pingwill, "but for the life of me I can't recall the context! It's queer what tricks one's memory plays."

Heydinger quietly resumed his seat. "Have you written anything lately?" said Pingwill to change the subject.

"Yes," said Heydinger, and seeing some further question threatened, added, as if in explanation, "Alvarados."

It pulled Pingwill up abruptly. "Alvarados! Ah!" he repeated after Heydinger, with an air of comprehension. If he understood, he was certainly wiser than I. His ears were now bright red. We remained tranquil, watching him. It was not my affair.

He returned to conversation presently with an air of having found and grasped the thing firmly. "Will you make them into a book?" he said bravely. A just perceptible dew was on his face. Heydinger evidently expected as much.

"Them?" he answered. "What?"

"Well—it. Alvarados."

"It!" said Heydinger, raising his eyebrows. "I don't know," he said and became silent. Pingwill was evidently baffled. Very awkwardly, and after a pause, he said he hoped that would be the case. Heydinger thanked him dryly. There was an interval while we watched one another. Then he discovered his pipe was out—it always is—and asked me for the matches. He talked incoherently upon indifferent topics for a few minutes after that, and all the time I could see the trouble in his eyes, the awful doubt of his own consciousness that had arisen. Alvarados? Presently he rose to go. Routed.

As he went out I heard him whisper to himself very softly, "Alvarados!"

He has not been near us since. I can imagine the dismal times he has had hunting through Rabelais, Gil Blas, Hadrius, the Dictionary of Phrase and Fable for Alvarados, going through the British museum catalogue for Wendell Hooper and hunting all Browning for the "Chattering Disks," feeling most horribly ashamed of himself all the time. I like to think of his final apparatus of knowledge, and ever and again Heydinger and I break the friendly silences which constitute our intercourse by saying casually, "Pingwill seems to be dropping in altogether." "Gr. Don't seem to see much of Pingwill as we used to do, Bellows." Such reflections are the slaves of life.—H. G. Wells in New Budget.

A Baby's Life Saved.

ADDISON, N. Y., April 8, 1894.—Hand Medicine Co.—"I feel it my duty to write you in regard to my little daughter's sickness from teething and indigestion. She is seven months old. Two of the best physicians gave her up. One bottle of Dr. Hand's Teething Lotion relieved her so much that we tried Dr. Hand's Colic Cure also, and at once saw a chance for the better. These remedies saved my baby's life.—Mrs. Wellington Brown." Dr. Hand's Colic Cure and Dr. Hand's Teething Lotion sold by all druggists, 25c.

Rebecca Wilkinson, of Brownsville, Ind., says: "I have been in a distressed condition for three years from nervousness, weakness of the stomach, dyspepsia and indigestion until my health was gone. I had been doctoring constantly with a relief. I bought one bottle of South American Nerve, which did me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely medicine; a few bottles of it have cured me completely. I consider it the grandest medicine in the world." Warranted the most wonderful stomach and nerve cure ever known. Sold by J. E. Mills, Middletown, N. Y.

WHEN SUNDOWN CAME.

Then Was the Time, He Said, For Him to Act.

He was holding a handkerchief to his nose and was bareheaded and looked badly mussed up as a policeman stopped him on First Street the other afternoon and asked him what he had happened.

"Sir," he said, "I was a stranger, who was a better young man of about 24, 'I want justice.' 'You shall have it,' said the officer. 'State your case.' 'I was in the place down here to get a glass of beer when a fellow came in and called me a yoke. I didn't hear nothing about that, and when he seen it he called me a yoke. I didn't get mad at that, and then he said he could lick me in two minutes.' 'Bound to pick a fuss, was he?' 'He was, sir. I didn't pay no attention to what he said, I was a good and decent man, officer, but when a fellow gets me mad all through, I'm dangerous. I'm not a prize-fighter, but I'll fight after a way of my own. I never do any fighting before sundown. Yes, I offered to fight him after sundown, but what did he do?' 'Punched you on the nose, I should say.' 'That's exactly what he did and then drew me around the corner by the hair of my head. Officer, I'm a square man. Look at me and tell me if you don't think I'm square.' 'Yes, I do,' replied the officer after a look.

"And is it right and fair for a man to take advantage of my squareness?" "Of course not." "Every man has his own way of fighting. I never fight except after sundown. I told him I was a square man. I told him my way of fighting. I asked him to wait, but he would not. No, sir, he just bopped on to me, and in 30 seconds I was a licked man."

"Well, don't have any more trouble," remarked the officer as he moved away. "Just a word," replied the square man as he worked away at his nose with his handkerchief. "In three hours it will be sunset. As the orb sinks away to his nightly rest, and in my heart will be a raging desire for revenge. I will meet that loafer. I will light on him. I will crack his jaw, and bang his eyes, and break his neck, and when I am through with him the angel of death will have claimed another victim!" —Detroit Free Press.

Wheels at Small Cost.

"My scheme," said the promoter, "is as simple as pie, and there is unquestionably a huge fortune in it."

"Of course," returned the capitalist ironically.

"You doubt it," said the promoter bitingly. "You think it on a par with the majority of schemes that require at the best a large investment of money and long years of waiting for a return. But you are mistaken. My scheme requires only a little money, and it deals directly with the prevailing trend of the hour."

"Buy in," asked the capitalist.

"Please do," replied the promoter.

"Well, that makes it worth considering anyway," said the capitalist, who was something of a sportsman. "Give me an outline of it."

"What say I to be worth," asked the promoter earnestly. "I'll tell you a plan for making big money, for less than half what it costs to make them now."

The capitalist looked over his desk and looked at the promoter earnestly.

"There'd be millions in it," he said. "Have you such a scheme?"

"I have," replied the promoter proudly. "It occurred to me while watching the scorchers on the boulevard. It should be easy to get some of them when they die."

"And then?"

"Why, all that is necessary is to put pneumatic tires on the curved bicycle spines."

The capitalist heard the promoter chuckling to himself as he sauntered down the hall and he got up from his chair and kicked himself three times for his trustfulness.—Chicago Post.

BUMPED HIS HEAD.

Leaned Too Far Out from a Crowded Car and Collided With a Pole

Harry Naden, of this city, was a passenger on a crowded car going to the park, last night. He, with many others, was standing on the foot board and when near the bridge leaned out too far and his head struck a trolley pole. He was not seriously hurt, but was stunned and but for the presence of mind of a friend who held fast to him would have fallen from the car.

It is said another party met with a similar accident, but we have not learned the name.

THE COMING HOT WAVE.

Slowly Moving Eastward and Will be Here Tomorrow.

The hot wave which started from the Northwest, Monday, was central, yesterday, in South Dakota and Montana, and temperatures of 100° were reported from many points in those States. The wave is moving slowly eastward and will be felt east of the Alleghenies, to-morrow, and two days of very fervid heat are in store for us. Severe thunder showers will follow the hot wave, which will be displaced by a cold wave which started, yesterday, from the blessed Saskatchewan Valley.

THROWN FROM HIS SULKY.

A Driver's Leg Broken on the Mount Cello Driving Park

While driving in the races on the Monticello Driving Park, yesterday afternoon, the sulky of Joseph Covart, of Monticello, collided with another sulky and Mr. Covart was thrown out and had his leg broken. He also sustained severe bruises about the head. His horse ran three times around the track before it was stopped. The bat was passed and \$56 raised for Mr. Covart.

RYMENEAL.

Wendy Weaver.

Alfred Wendt, formerly of Cleveland, O., but now of Port Jervis, and Miss Maggie Weaver, of that village, were married at 9 o'clock this morning by Rev. M. Salley at the parochial residence of St. Mary's church. Mr. Augustus Sufer, of Port Jervis, was groomsmen and Miss Bertha Mongan, of this city, bridesmaid.

THE CONDUCTOR'S CLAIM BAKE.

The Conductors' claim bake at Livingston Manor, to-morrow, will be one of the best ever given unless the weather should prevent. All arrangements are completed. There is an abundance of clams, blue fish, chicken, corn, watermelons, etc., etc., to feed 10,000 people provided, and all will be served in Jack Sherwood's best style.

Special trains will leave Main street at 8:15, 10 and 10:40.

Mayor Stansbury Sustains Officer Durham.

Mayor Stansbury gave a bearing, last evening, to Mr. Sinclair Stevenson, who made a complaint against Officer Durham, charging the latter with undue harshness and conduct unbecoming an officer. The Mayor, after hearing both sides of the story, decided the officer had performed his duty and sustained him in everything he did.

Johnny Ward Again Playing Ball.

John Montgomery Ward, ex-manager of the New Yorks, has announced his intention of playing ball for exercise. He will cover second base for the Orange Athletics in their game with the Asjumes, Saturday.

A Cow on the Tack.

A cow belonging to Mr. Earl was struck by a car from Goshen just before it entered the park, last night. The cow was not badly hurt and the car didn't seem to mind the collision.

Contract Awarded.

Mr. Thos. A. Murphy, the plumber, has been awarded a large contract for plumbing at the State Homeopathic Hospital. He had several competitors for the job. His bid was \$1,320.

Broke the Record.

Car 19, Buick conductor and Coleman motorcar, broke the record last night by carrying 157 persons to the park.

In Your Food.

Is the cause of that tired, languid feeling which afflicts you at this season. The blood is impure and has become thin and poor. That is why you have no strength, no appetite, cannot sleep. Purify your blood with Hood's Sarsaparilla, which will give you an appetite, tone your stomach, and invigorate your nerves.

HOOD'S PILLS are easy to take easy in action and sure in effect 3

Mr. A. A. Snyder, Supt. Poor Farm, Winnebago Co., says:—Last winter Mr. Robert Leach used two boxes of DeWitt's Witch Hazel Salve and cured a large running sore on his leg. Had been under care of physicians for months without obtaining relief.

BIG DEALS FOR '95 AND '96.

Extensive Preparations Being Made for Producing "A Midnight Frolic."

There is no business which admits of so many wonderful innovations as the theatrical business. The present age might appropriately be styled "The Realistic." Men with vast capital have entered the field, and their rivalry and spirited competition have called forth the most astounding results. The public craves amusements as one of the most essential necessities of life, and are so thoroughly educated as to the merits of what is good or bad that it pays best to cater to them by presenting only what is certain to be stamped as "O. K."

One of the theatrical enterprises which will open in New York city is the comedy drama, "A Midnight Frolic," for which extensive preparations have been carried on, is sure to make an instantaneous and unqualified success. After its New York opening it will be sent across the continent to San Francisco with the entire New York cast, and it is unanimously conceded by newspapers and theatrical critics that among the big deals for '95 and '96 will be found "A Midnight Frolic."

A S3 NIAGARA EXCURSION.

How It Comes That Port Jervis is Given a Lower Rate Than Middletown.

The Erie will run an excursion from Port Jervis to Niagara Falls, Saturday evening, for \$3 for the round trip. Train leaves at 6:27 arriving at the Falls, Sunday morning at sunrise. Returning, the train will leave the Falls at 4:30, Sunday afternoon, arriving home early Monday morning.

An agreement with the O and W., not to out rates at competitive points is probably the reason why Middletown is not offered an opportunity to share in this cheapest of all excursions.

STORM AT DECKERTOWN.

Harve Wrought by Lightning in That Village.

Deckertown was visited by a terrific electrical storm Sunday. Two showers came over the mountains and met nearly over the town. A large barn owned by William Nilson was struck between 6 and 7 o'clock and completely destroyed, with its contents, including a large crop of hay and grain.

At the home of Mrs. James Morton, about a mile below Deckertown, a large elm tree about thirty feet from the house was shattered and the bark thrown fully fifty feet, and a telegraph pole, about 100 feet from the house, was also shattered. The inmates of the house were stunned, but are happy that nothing serious resulted from it.

A PROMISING NEW INDUSTRY.

Crane & Swayze Strike Out in a Line of Manufacture New to This City

Messrs. Crane & Swayze are developing a most promising industry, altogether new to Middletown, namely, the manufacture of wooden packing boxes, in which they are utilizing the well appointed planing and saw mill of their extensive plant on Montgomery street, this city. Contracts have already been secured which call for turning out some seven thousand boxes a week, while other contracts are in prospect, which, if secured, will nearly double this output.

Inflammatory Rheumatism Cured in Three Days.

Morton L. Hill, of Lebanon, Ind., says: "My wife had inflammatory rheumatism in every muscle and joint; her suffering was terrible and her body and face were swollen almost beyond recognition; had been in bed or six weeks and had eight physicians but received no benefit until she tried the MYSTIC CURE FOR RHEUMATISM. It gave immediate relief and she was able to walk in about three days. I am sure it saved her life. Sold by J. E. Mills Druggist, Middletown, N. Y."

THE BURSTING OF AN AEROLITE.

The Mystery of the Deafening Crash of Sunday Night Explained—Not a Thunder Peal—The Wonderful Sight Seen by a Party Returning from Crystal Run—A Meteor Flies Into Pieces Before Their Eyes.

The cause of the terrific report, early yesterday morning, which startled everybody in this city and surrounding country, and which was supposed to have been a single peal of thunder, has been discovered. It was the bursting of an aerolite in the heavens. Several persons have been found who saw the great meteor at the time of the explosion, and as they describe it, it must have been one of nature's grandest of pyrotechnical displays.

A party of six young people, Mr. Milo Smith, of this city, Mr. Orin VanGordon, Linda, Hattie and Lizzie VanGordon and Sadie Youngs, of Dingman's, Pa., had been visiting friends at Crystal Run and were on the big hill near Michigan, on their way home, when the horses stopped suddenly and trembled with fear, and at the same time the whole heavens were lighted up and a great ball of fire with a train of light following it came up over the southern horizon and passed swiftly to the east, and when, apparently between Middletown and Mechanistown, the great mass exploded, breaking into four parts which went sailing in as many directions but soon ceased to give forth light.

Mr. Smith says the report was the loudest he ever heard and seemed to fairly shake the earth. He estimated that the aerolite was in plain view at least two minutes before the explosion came and all had a good view of it.

Miss Martha, daughter of Mr. Archie Gordon, of Franklin street, this city, also saw the aerolite, and her description of it is the same as that given by Mr. Smith. She was sitting at the window of her room and was so thoroughly frightened by the unusual spectacle that she rushed back to her bed, and did not see the explosion of the meteor, and probably missed the grandest sight it will ever be her privilege to witness.

Sergeant Wilson and Officer Sharpe of the police force were standing under the awning at Brock's corner when the aerolite passed through the air, but did not see the great fiery ball itself, but noticed that the whole street around was lighted as they had never seen it before. Even the explosion which followed the flash of light did not convey any explanation to them of the great light they had seen.

More Water for Liberty.

Liberty's present water supply not being adequate to the village's needs, it is proposed to increase the supply by tapping Revonah Lake. It will only be necessary to lay a mile of pipe and the water can be run into the present reservoir. The Water Commissioners will soon ask for authority to raise the necessary money.

A Swill Milk Stable.

Col. McIntee, of the Society for the Prevention of Cruelty to Animals, made complaint to the Board of Health of Kingston, last night, that twenty cattle were being fed on brewery waste on the outskirts of the city. The presumption is that the milk is being sold in Kingston. The cows are said to be in a wretched condition. A thorough investigation will be made.

Population of the State Hospital.

According to the Conglomerate, there were, Tuesday, 1,129 patients in the State Homeopathic Hospital for the Insane, in this city, of whom 533 were males and 596 females. During the week four patients were admitted and two discharged.

Crushed Stone for Deep Park Roads.

The Highway Commissioners of Deep Park, after testing a steam crushing machine which crushed 28 loads of stone in five hours, have leased the machine for one year, for \$500 with the privilege of purchase by paying \$750 additional.

Ladies on a Bicycle Trip.

Mrs. D. H. Arthur and Misses Nellie and Jessie Munger went to Port Jervis by train, this morning, and from there will ride their bicycles to Dingman's Ferry, returning this evening.

Severe Storms Predicted.

Weather Prophet Foster telegraphs from his observatory in St. Joseph, Mo., that Aug. 17 to 23 Sept. 15 to 22, Oct. 13 to 20, and Nov. 12 to 18 are dates when severe, dangerous, destructive storms may be expected.

O AND W. ENGINE NO. 71.

Norwich Shop Hands Claim All the Credit for Its Construction

The Norwich Sun says that the employees of the Norwich shops of the O. and W. think a rank injustice is done them by the statement that has been published that the Middletown shops helped in the construction of engine No. 71, which is now pulling the night express. The Norwich boys, who are very proud of the engine, say that not a single bolt was made at Middletown and that the engine is all the product of Norwich skill. There is sharp rivalry between the Norwich and Middletown shops.

To Build a Steam Road in the Delaware Valley

The Stroudsburg Times has it up a good authority that a steam railroad will take the place of the defunct Delaware Valley Electric Railroad and run between East Stroudsburg and Port Jervis, connecting at the latter place with the Erie Railroad. So the prospects of a railroad up the beautiful Delaware valley is not nearly as remote as some people are inclined to believe.

How the Tramps Got Away.

Ten tramps who were stealing a ride on an O. and W. freight train were locked in a car at Randallville, Monday afternoon, and the conductor telegraphed to Norwich for officers to arrest them on the arrival of the train at that station. When the car was unlocked it was found that the tramps had disappeared. They had made their exit through a ventilator at the end of the car, which they had smashed out as soon as they found themselves prisoners.

A Very Beautiful Publication.

We are in receipt of a copy of the souvenir programme of the Wallkill Valley Farmers' Association's outing day, at Woodlawn Farm, Wednesday, Aug. 21. The programme is very handsomely illustrated with attractive views of the Wallkill Valley, handsome residences, business structures, public buildings, etc., and is well worthy of preservation.

Fine Celery From the State Hospital Gardens.

Mr. Owen Maquire, head gardener at the State Hospital, left several heads of celery at this office, this morning, which were grown in the Hospital gardens. They were as fine specimens of celery as have ever been produced in this section of the country.

We would like to look into the pleasant face of some one who has never had any derangement of the digestive organs. We see the drawn and unhappy faces of dyspeptics in every walk of life. It is our national disease, and nearly all complaints spring from this source. Remove the stomach difficulty and the work is done.

Dyspeptics and pale thin people are literally starving, because they don't digest their food. Consumption never develops in people of robust and normal digestion. Correct the washing and loss of flesh and we cure the disease. Do this with food. The Shaker Digestive Cordial contains already digested food and is a digester of food at the same time. Its effects are felt at once. Get a pamphlet of your druggist and learn about it.

Stomach and Bowel Complaints are best relieved by the timely use of DeWitt's Colic & Cholera Cure. Insist on having this preparation. Don't take any other. W. D. Olney.
